DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 13, 14, 16, 17, 18, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Olson.

Olson discloses the use of a monoblock valve body (column 3 lines 45,46) for a musical instrument comprising: a single piece body further comprising a plurality of valve cylinders for receiving valves and a plurality of ports and interfaces in fluid communication with said valve cylinder, wherein said ports and interfaces are substantially perpendicular to the axis of said valve cylinder (see figure 2). Olson also discloses the use of a threaded region (see claim 7) and a valve guide (33).

3. Claims 1-10 allowed.

4. Claims 15 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Applicant's arguments with respect to claims 13, 14, 16, 17, 18, and 20 have been considered but are moot in view of the new ground(s) of rejection.
